

## First Circular / Call for Papers

### Invitation

Dear Colleagues:

On behalf of the Organizing Committee, we cordially invite you to attend the **9<sup>th</sup> Asia-Pacific Congress on Catalysis (APCAT-9)**, which will be held from **Oct. 30<sup>th</sup> - Nov. 2<sup>nd</sup>, 2023, in Hangzhou, China.**

The conference is organized by the Catalysis Society of China and Zhejiang University, under the auspices of the Asia-Pacific Association of Catalysis Societies (APACS), and aims to cover all aspects of science, materials, and technology associated with catalysis. With **"Catalysis for a sustainable development"** as the theme, the APCAT-9 will address the most current environmental, energy, mobility, and circular economy solutions which are based on catalysis, in line with advanced catalysts preparation, characterization, modeling, data analysis approaches, and industrial applications.

Based on the great success of previous conference editions in Gyeongju, Sydney, Dalian, Singapore, Sapporo, Taipei, Mumbai, and Bangkok, we are confident that the APCAT-9 will once again gather scientists from academia and industry with the goal of sharing the latest ideas for the mutual benefit of both basic research and industrial applications of catalysis.

We are looking forward to welcoming you to Hangzhou!

### Chairs

Feng-Shou Xiao (Zhejiang University)  
Licheng Sun (Westlake University)

### Key Dates

**March 1, 2023**

Submission of abstracts

**June 15, 2023**

Deadline for abstracts submission

**July 31, 2023**

Deadline for early-bird registration

**October 30-November 2, 2023**

APCAT-9

### Venue

APCAT-9 will be held in InterContinental Hangzhou. With its 6000 square meters of meeting and conference area, as well as with convenient accommodation and transportation systems, InterContinental Hangzhou is the perfect venue for an inspiring meeting, which will surely provide a comfortable and elegant environment for the congress.
