

ICEC 2027

14th International Conference on Environmental Catalysis

12.10.-15.10.2027

In Karlsruhe, Germany

Contact: florian.maurer@kit.edu

Scientific Topics

- Sustainable and Clean Energy Production & Storage
- Mobile & Stationary Emission Control
- Air Cleaning & Water Treatment
- CO₂ Utilization, Recycling & carbon-free Cycles
- Green Chemistry & Biomass Transformation
- Future Trends in Environmental Catalysis
- Multiscale Modeling & Advanced Simulation Aspects
- Process engineering & Materials Characterization
- Fundamental Advances in Understanding Catalysis
- Novel Concepts for Emission Control
- Photo-, Electro- & Plasma Catalysis
